Editor's Notes

So for the past month and a half, I've been studying for my certificate exam for medical coding. For those who are new to this magazine, for almost two years, forgoing my hobbies and going to conventions for the most part, I went back to school for medical coding. Well, I passed my exam last month and had training for the next three weeks. Once things go back to normal, I'll be diving back into my hobbies as well as continue playing *Xenoblade Chronicles X*. Things are moving forward.

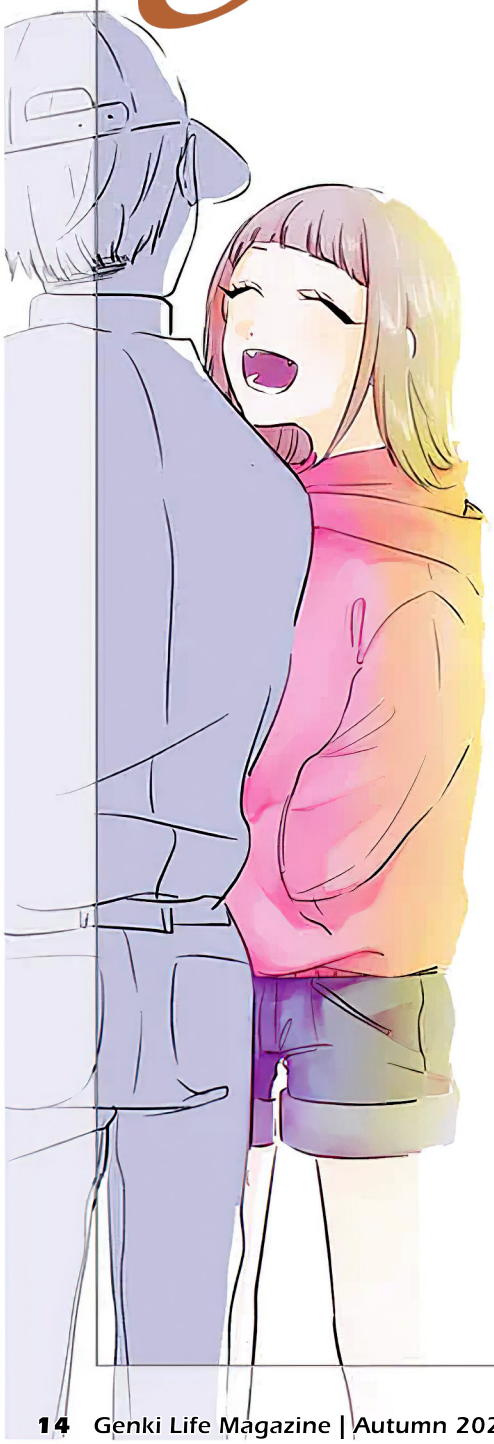
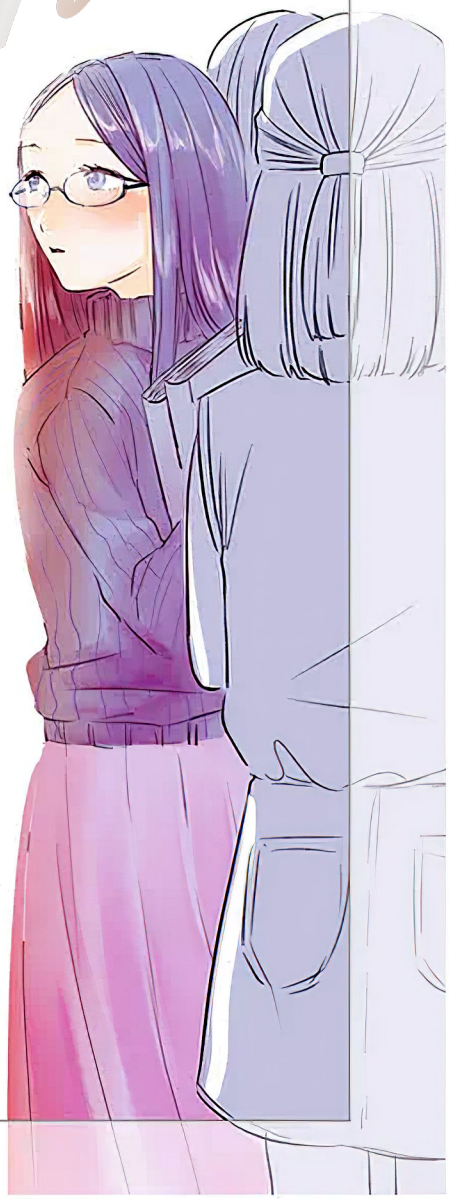
Senpai no Kōhai





Senpai no Kōhai is a GL (Girl-Love) romance manga. This particular manga seems to carry a special place within the manga author's heart, as she states that it has been crafted carefully since their debut and seems to be based upon personal experience. The notes at the end of the book seem to indicate that this book is a manifesting of the love from running into an old crush; allowing it to bloom into this story.

Sayuri Terazono is a woman who has inner-conflict regarding her sexuality when it comes to feeling for her kōhai, Risa Nakayama. After meeting again after graduating a year ago, it seems as though her feelings are the same! However, is this simply a game to Risa, who has never been with a woman before? Are her feelings to be trusted, and should Sayuri let her defenses down? Perhaps Senpai Sayuri can learn something from her underclassman.

Forlorn Soul

This story is multi-faceted in that it opens up once you begin to read more chapters. The protagonist, Sayuri Terazono, feels initially as if she's simply her own worst enemy by creating barriers and obstacles where none such exist. It's frustrating seeing the "Senpai" act so emotional and hesitant with clear-cut signs of affection from the one she's been desiring the whole while. That is the case as more chapters seem to pass, but you're empathetic to her internal conflict due to the things she's been through.

Sayuri openly states and expresses doubts regarding Risa Nakayama. While it could be something as simple as their social circle, or their gap in University (Sayuri was a senior while Risa had just enrolled), it boils down to primarily be because of perceived sexual orientation.

Sayuri has openly stated that she knew, "It was a bad idea to pursue someone straight". This is later backed up by believing the kiss shared between the two at their reunion

Main Characters:

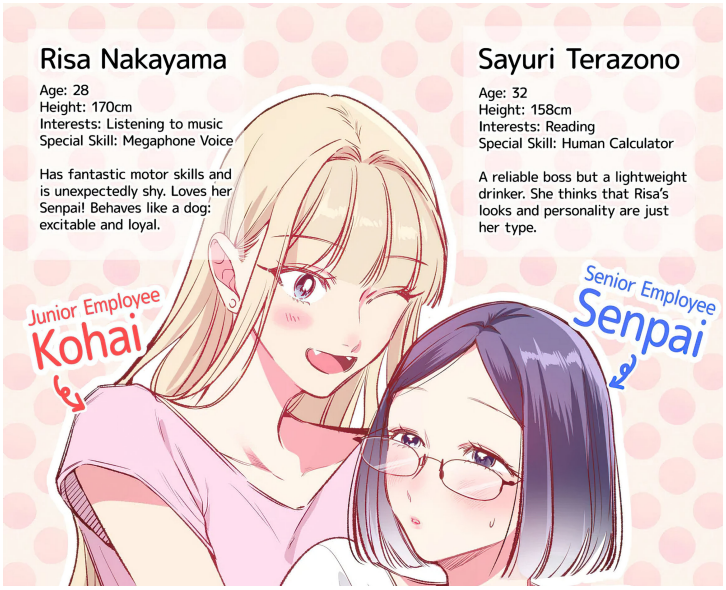
Risa Nakayama



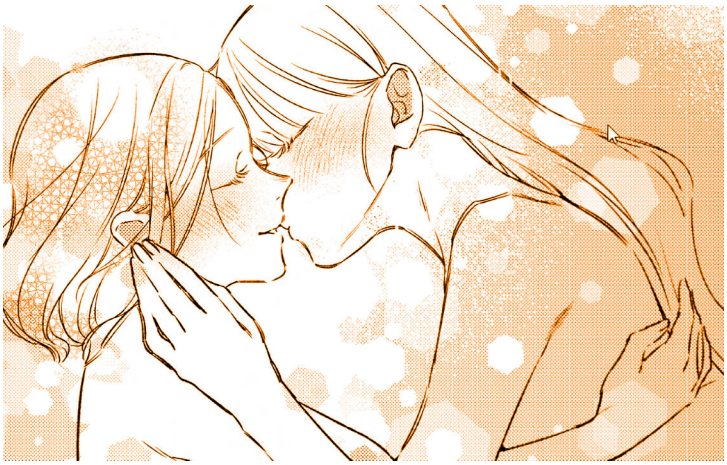
at her job; Sayuri wondering whether-or-not "Risa sees her as a joke" and if it's "Fun for her?". This has led Sayuri back into attempting to suppress her feelings for Risa, which isn't the first time. "We are not the same", separating them into different brackets and seems to carry over from her student years of attempting to separate herself from those romantic feelings for Risa.

Being lesbian rather than straight has taken a mental toll on Sayuri. The previous statement of her saying, "It was a bad idea to pursue someone straight" seems to imply that perhaps she was rejected before by heterosexual women before. More than that, her trying to sum up those feelings for Risa as simple affection one would have for a model or celebrity translates to knowing your adoration is shallow and limited; something unattainable. Sayuri is cheapening her emotions to protect herself from the possibility of painful rejection. A good example of this is the pain she shows for her parents and her not speaking due to her coming out as lesbian.

I think by Chapter 3 we get to fully flesh out what's wrong with Sayuri and why she's so emotionally unavailable. How it feels as if the affection that Risa gives her is questioned constantly to the point she even says, "You haven't been with a woman before me, right?". It's hard for her to believe that this isn't simply an experiment to Risa; that this woman means what she says and isn't going to simply leave once defenses are let down and feelings are fully invested. We also see this when Sayuri thinks, as Risa is confessing to her, "You don't care that I'm a woman?".

By the end, the beautiful moment of embrace between Sayuri and Risa seems to be the former letting

go of bottled up feelings; worries of the past, being accepted, and the absolute fear of unrequited love. It seems more than simply a union between two people, rather, it's a convergence of all of her trauma into a cocoon that evolves into a worry-free butterfly of self-acceptance and inner-peace.



The Unrealistic Heroine

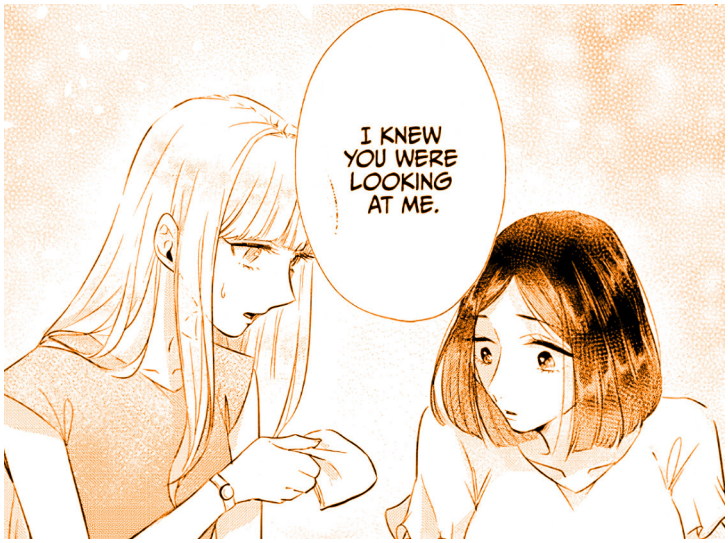
Risa Nakayama, the person of Sayuri's affections, is an unrealistic heroine. I say this because things add up in a way I do not believe would happen in real life; and this is where the vision of the author seems to manifest from longing. A perfect daydream; a supposed love that was lost to the harsh realities of life comes from the ether and turns your world upside down.

Risa seems to be the polar opposite of Sayuri in the sense that she's outgoing and a socialite, while Sayuri seems to be more of a studious and reserved person. This is backed up by Sayuri mentioned that, "She led a completely different life than I did". For me, it felt as though Risa would've approached Sayuri earlier with the type of bold and brazen attitude that was portrayed rather than taking a longer, more elaborate route; following her to work, studying to become an employee at the same job, etc. To me, this is backed up by the fact that Risa attempted to kiss Sayuri on their first day working together with no build-up whatsoever. You cannot believe that someone this forward would have not taken action sooner.

Moreover, the author makes it seem that Risa also secretly fell in love with Sayuri due to admiring her for a long time. Risa takes note of Sayuri's academic achievements and that Sayuri was staring at her, and even blushing when hearing her named called out from a drunk Sayuri. Also, only after running into her a year later after she graduated (after unsuccessful attempts to find her contact information) did Risa "realize" she had romantic feelings. It just seems too implausible, especially since it's heavily implied that Risa had a boyfriend at one point and also never been with a woman until then.

It seems odd to me that Risa admired Sayuri so intensely and did not interact with her during their entire year together at University. That even after seeing Sayuri crying and calling out her name, that she didn't attempt to further talk after handing over a handkerchief. The personality of bold and outgoing except when it initially comes to Sayuri doesn't mix at all well to me.

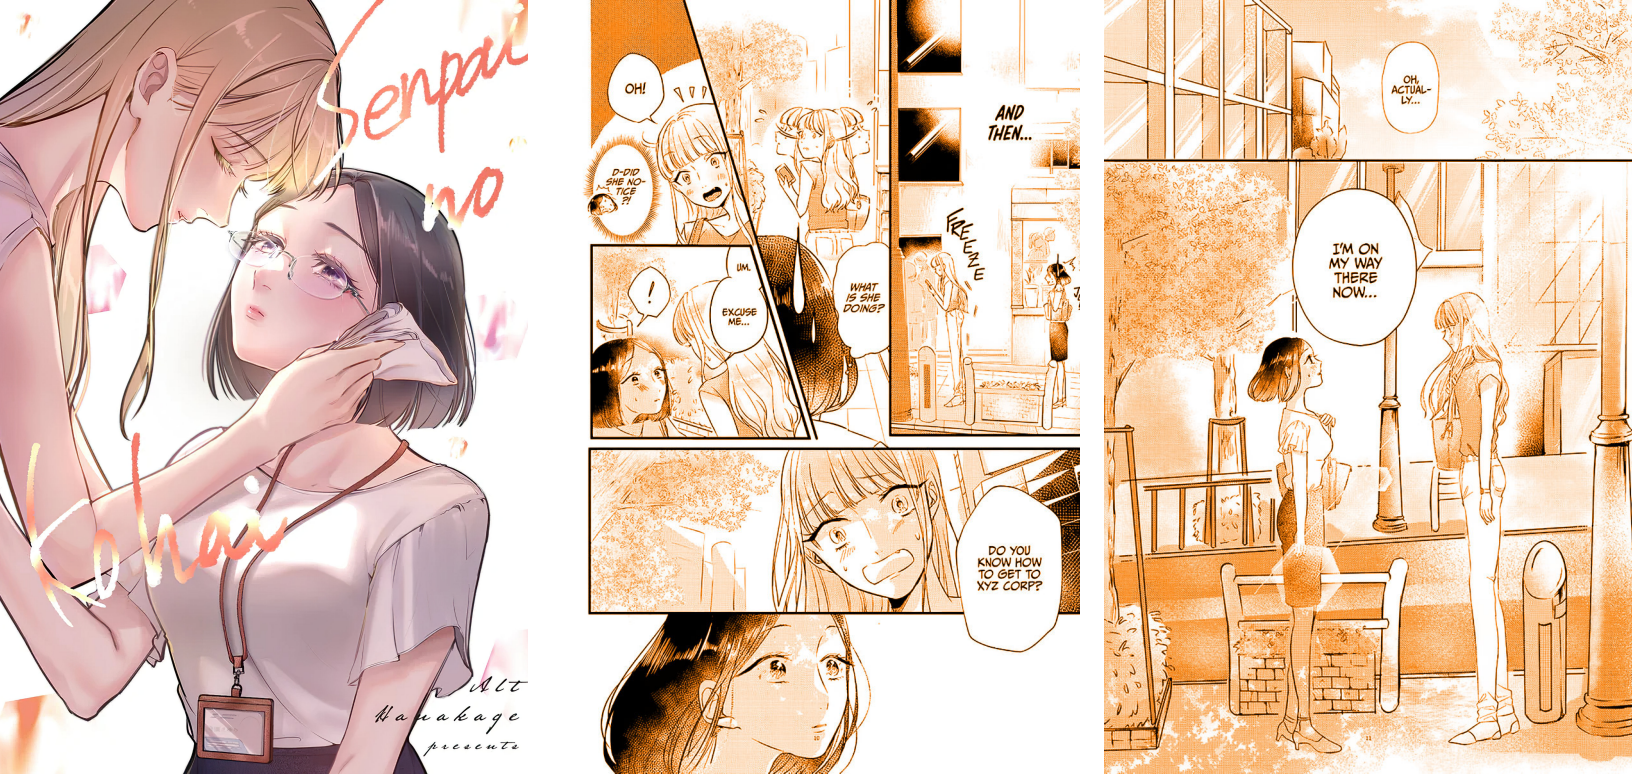
Risa feels like someone who exists simply to calm down the internal worries of Sayuri. The motivation and cause behind this love feels artificial. Someone bold enough to kiss on a reunion meeting and to take initiative every time a step needs to be taken (affection, dating, etc) doesn't seem as though they'd need an elaborate setup to simply express their feelings (especially so rushed). This character simply feels as though they exist for the goal of pure fantasy to calm the inner torrent of Risa's swirling emotions and doubt than an independent character.



The Verdict – Half-&-Half

STRENGTHS — Sayuri is a well-written character which embodies struggles that are well thought out; The ending is satisfying by bringing about great closure to the experiences and traumas of the main character.

WEAKNESSES — Risa feels like she's written as simply an answer to the main character's qualms; this makes her feel as though she's not her own character and the entire story diminishes quality due to her not being as fleshed out.



Sample panels with the cover from the physical version.

Final Thoughts

This manga gets a "Half-&-Half" simply because there are positive aspects, such as how Sayuri is a really well written character with realistic and grounded doubts caused by her perspective of reality. However, there are also things which seem out-of-touch and equates to wishful thinking; as if this is some fantastical daydream to reaffirm everything Sayuri believes to be out-of-reach for someone like her. This is primarily done through Risa being a strong and bold pursuer while simultaneously having the ability to play the long-game.

The author obviously wrote this from experience because Sayuri's feelings, doubts, and mannerisms seems to reflect the pains that comes with being scorned. Parents not supporting her sexuality, feelings of unrequited love caused by worries around Sayuri believing Risa was straight, and the inability to believe it's safe to lean into her romantic emotions. I feel like I was staring into someone's genuine concerns and tribulations when it comes to dealing with a one-sided heartbreak due to believing you've failed before believing you even had a chance. It's a grounded take that puts you into the head of someone who's fallen deeply in love but have given up all hope that those emotions could bear fruit, so you do your best to write them off as shallow adoration.

Risa comes off as a woman who simply alleviates all worries and fears of Sayuri by constantly swinging a sledge hammer at the pillars of doubt reinforcing her negative preconceptions. That Risa was admiring the shy, quiet girl the entire while; that she realized she was in love upon seeing her once more, and that she'd take the time to adamantly study and plot so that their fates would inevitably cross once more. Without more backstory and reasons as to why Risa would admire someone who simply had good grades and "Excelled at everything", it seems very shallow. Anyone could fit within that mold, it wasn't nearly as in-depth as the reasons why Sayuri fell for Risa.

Overall, it's a heartwarming story for someone who is full of doubt. Sayuri overcame inner turmoil and came to stop repressing her emotions due to the acceptance and reciprocation of Risa's feelings towards her; more so that she did not accept blatant lies when it came to those romantic feelings from Sayuri. However, this story feels so unbalanced due to the reality grounded Sayuri and the Knight-in-Shining-Armor Risa. Though, to be fair, love doesn't always make sense and as Ed Sheeran said before, "People fall in love in mysterious ways". It was a pretty good read, but I can't give a full recommendation due to Risa not being nearly as fleshed out and simply seems like an answer the protagonists internal struggles. ❖ Rok the Reaper

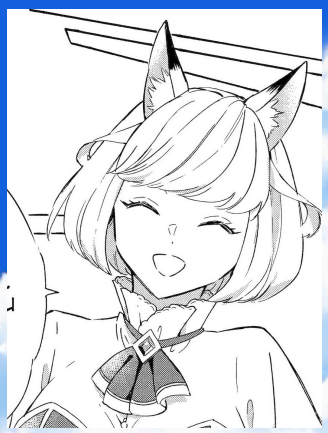
Story: Sakaki, Mochimaru
Illustrator: Tamutamu
Story: Zazaron, Anan

Main Characters:

Wataru Toyomi	Dorothea
Camille	Irma
Felicia	Carla
Ines	Marina
Alicia	Claretta



Above: A-rank adventurers Gira Sole
Top Left: Felicia and Ines
Left: Guild receptionist Camille

When I first came across this manga about two years ago, it became one of my best easy-to-read stories. Other than the standard isekai trope like harems and overpoweredness, it was very unique in that the main protagonist summons boats. Reading the first chapter got me hooked and I couldn't wait to read more. As I did so, the story became more and more intriguing.

The main protagonist, Wataru Toyomi, is an ordinary college student. After a night of having fun with his friends, he falls into the ocean. Wataru finds himself unexpectedly transported to another world and wakes up on a grass field. Dazed and confused, he discovers a unique ability: the power to summon ships of all kinds, as well as the standard language skill. With this newfound skill, Wataru sets his sights on achieving an easy life of wealth. It wasn't until the god that transferred him became disappointed with his slow start and nudged him to take on more difficult challenges. Passing tougher challenges would gain more money and he was told that he could ultimately summon a luxury liner, like Royal Caribbean's Icon of the Seas. And oh, all the boats and ships he summons can't be damaged and are unsinkable. Undeterred by this challenge, Wataru embarks on an adventure to gather the experience points and resources needed to summon this dream vessel. Wataru is joined by allies like Felicia, Ines, and the A-rank adventure party Gira Sole.

Wataru Toyomi appears to be your typical otaku: meek, timid, cowardly, but when he sets mind to it, he seems to change personalities. Starting out in West City, in the Latina Kingdom, after his arrival, he joined their adventurer's guild and became enamored by the guild receptionist. Hunting horned rabbits became his norm and he became famous for it. After his short stay in West City, he traveled down to Southern City to be a merchant and where he met his other allies.

The two main allies are slaves that Wataru bought: Felicia, a dark elf, and Ines from the Falling Tiger tribe. But first, they became slaves under their own volition and have basic rights. They also have the right to choose their potential master through an interviewing process. Felicia became a slave for the livelihood of her village which was ravaged by Demi-human hunters. As for Ines, it's simply to pay off her gambling debt. The first person Wataru met in Southern City was the cute, fox-eared, merchant guild receptionist Camille. She became good friends with Wataru and the main character to help him become a merchant and source of information. Although Wataru met the all-girl adventure party Gira Sole on the way to Southern City, they only got to know each other and became his allies after meeting them again on one of his jobs as a ferryman. Gira Sole consisted of Alesia, their leader; Dorthea, the second in charge; Carla, the tank, sorceress Irma; priestess Carletta; and their scout, Marina. As all trusted allies, Wataru discloses his secret that he was transferred from another world and about his ship-summoning skill.

With the help of those who allied with him, Wataru navigates this unfamiliar world filled with action, comedy and a bit of ecchi. His journey is packed with thrilling encounters, from battling foes to uncovering ways to exploit his ship-summoning skill for profit and prestige. As he strives for a life of affluence aboard his luxury liner, Wataru's determination and quirky ability lead to unexpected friendships and hilarious misadventures. This manga by Tamutamu and art by Anan Zazaron might be too off-the-wall of a story even for the most diehard isekai fan, but I would say "give it a chance" and discover its charm. *The Quest for the Luxury Liner* can be found on Square Enix's *Manga Up!* For your reading pleasure. ❖ Ed Gomez

How Payment Processors Are Quietly Ta

This headline says what there is to say with what is happening with the major international payment processors (PPs, onwards) Visa and Mastercard. What they have been doing is quietly enforcing controls on what video game storefronts like Steam can sell. They are using their financial monopoly to pressure stores to censor legal adult content and what they deem "problematic." This censoring does not only affect legal adult content in video games, but could eventually affect other genres such as books, media, and other forms of entertainment. There's no legal precedent to this censorship, but because the content offends the personal values of certain activist groups and/or corporate executives, it's being targeted. This has been quietly in the works for a few years and only has been brought to light in the past few months.

Manga Toshokan Z website

Japan had been having problems with international PPs from around 2023 and possibly earlier. Payment processors were refusing payments to creators of legal adult content. Not only creators were affected, but companies like Pixiv, Fanta, DLsite, NicoNico, and many others took a dive in revenue and could ultimately be forced to close up shop. Worse yet was the closing of *Manga Toshokan Z*, a website founded by Ken Akamatsu of *Love Hina* fame, that let users read thousands of "out of print" manga titles for free. For a fee, print digital copies of those titles could also be accessed. This was a big blow to the millions of monthly users of the website.

Collective Shout is an Australia-based, feminist activist group. For all intents and purposes, their main objective is to prevent the sexualization and exploitation of females in modern media. On the surface, this is a noble cause and most people don't see any problems with it. It wasn't until Collective Shout had admitted they led a massive email campaign to the major PPs to end payments to companies and creators that sell, in their minds, objectionable adult material. The problem…they were legal in their respective countries.

Their activism goes back to 2020 when they submitted a 25-page recommendation document to change the Australian classification regulation to Ron Fletcher, the Minister of Communications, Cyber Safety, and the Arts Parliament House. This was the result of Collective Shout's exposing the "failure" of the Classification Board of letting anime and manga depicting "illegal child sexual abuse" into the country. Later that summer, several anime and manga titles were banned for sale in Australia, giving a black eye to anime fans. These banned titles are: *Eromanga Sensei*, *Sword Art Online*, *Goblin Slayer*, *No Game, No Life*, *Inside Mari*, *Parallel Paradise*, *Dragonar Academy*, to name a few for now. The Japanese bookseller Kinokunya and other retailers were forced to remove those banned titles off their shelves.

In Japan's case, it flew under the radar to most of

the Western countries. This controversy also reached the ears of the Japanese Diet. Chancellor Tarō Yamada of the upper house is a champion against the censorship of adult material and media from legal repercussions. His concern is that retailers of these merchandise were informed by their payment agencies that Mastercard and Visa will no longer process payments for transactions of such merchandise. At the time of this news, the Chancellor is still looking into the matter and hopes to find a compromise between the payment processor and retailers.

Even when *Nier: Automata's* creator, Yokō Tarō, spoke out against the power of these PPs censoring Japan's anime, manga, game, and art companies that sold legal adult material and media, not much came from it. For the time being, said companies have no choice but to secede to the PPs' demands. On Tarō's X account, he states:

> **"About credit card payment companies refusing to process payments for legal adult content.**
>
> **Publishing and similar fields have always faced regulations that go beyond the law, but the fact that a payment processor, which is involved in the entire infrastructure of content distribution, can do such things at its own discretion seems to me to be dangerous on a whole new level.**
>
> **It implies that by controlling payment processing companies, you can even censor another country's free speech.**
>
> **I feel like it's not just a matter of censoring adult content or jeopardizing freedom of expression, but rather a security hole that endangers democracy itself."**

Mr. Yokō makes it clear that the control of PPs endangers Japan's free speech and creativity. This control of censorship, for now only against adult material, could lead to other things in the future. The Japanese government is in talks with the PPs on how to resolve this issue and hopefully come to a compromise.

The control of PPs over video game companies came into the worldwide spotlight in early July. Valve (Steam) will follow policies set by PPs to

remove games containing scenes too disturbing and obscene from its storefront. itch.io and others also followed suit and removed these types of games from their storefronts. The policy changes came about when Australian activist group Collective Shout pressured PPs to do so and announced their victory. This called for all not-safe-for-work (NSFW) games to be banned as a result of their pressure tactics. The video game companies, at this point, had very little recourse despite the backlash from game developers and gamers alike. Either they had to comply with the policy change or PPs would discontinue business with them.

In light of this controversy, these PPs, primarily Visa and Mastercard, had denied that they had to do anything about this controversy. In one statement by Mastercard,

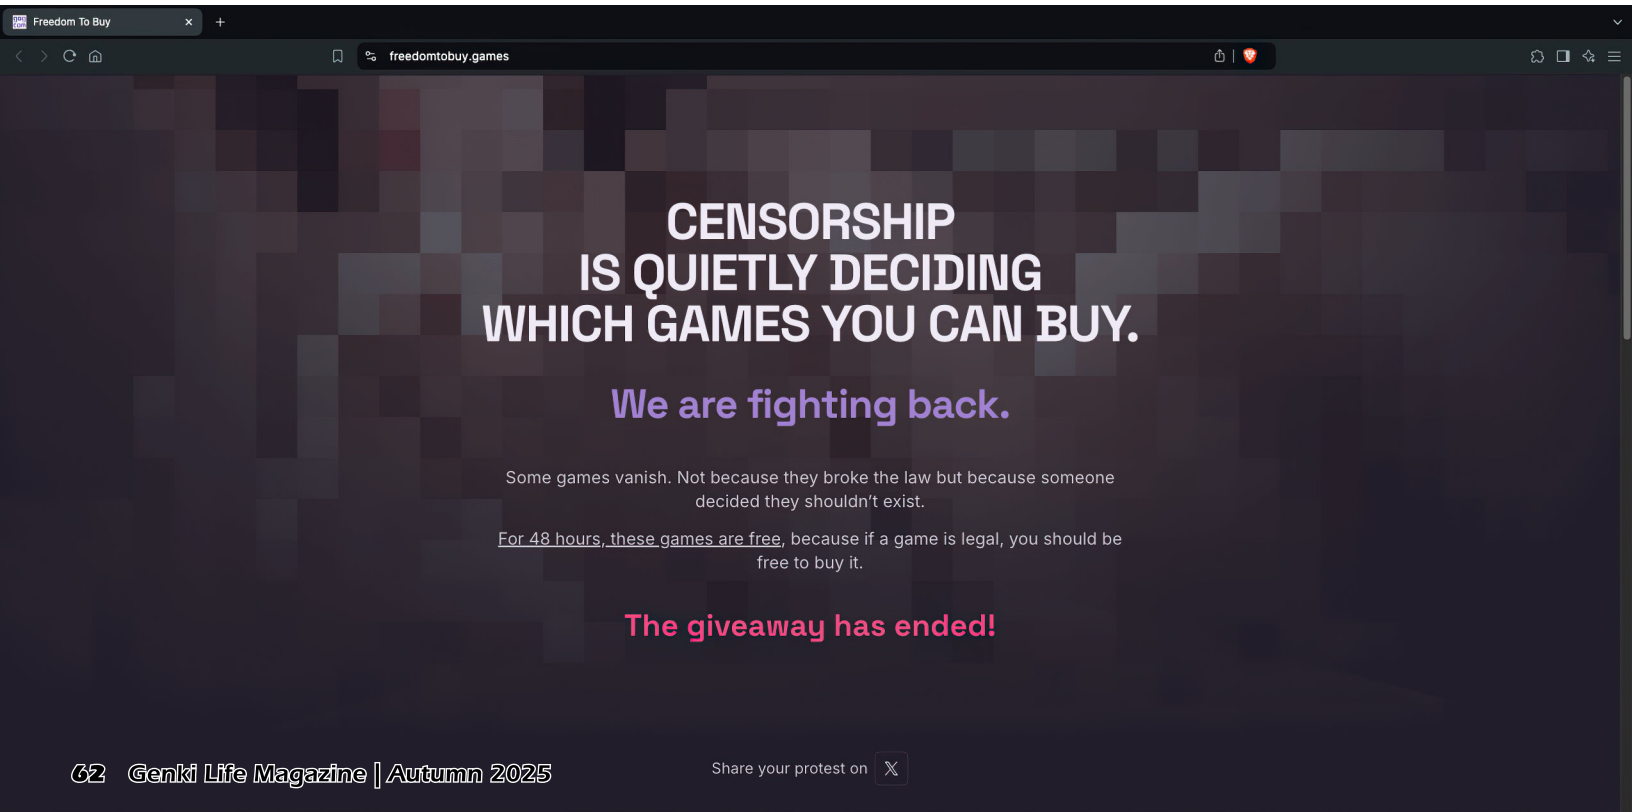
> **"Mastercard has not evaluated any game or required restrictions of any activity on game creator sites and platforms, contrary to media reports and allegations. Our payment network follows standards based on the rule of law. Put simply, we allow all lawful purchases on our network. At the same time, we require merchants to have appropriate controls to ensure Mastercard cards cannot be used for unlawful purchases, including illegal adult content."**

Although these two companies state they do not censor adult content, there has been a lot of evidence to the contrary. Hundreds of legal adult games have been removed from storefronts without a clear list of what has been removed. Valve (Steam) confirmed that they had been "notified" that some of the games might violate their new terms of service.

The backlash to this hit like a tsunami. Right away, the gaming community rallied for support for a new anti-censorship petition that demands the end of the censorship and grants the right for consumers to purchase legal entertainment with the oversight of the moral police. The petition, which can be found on change.org, as of this writing, has almost 260,000 signatures.

What happened next was to follow the Collective Shout's playbook. All over social media and YouTube, influencers rallied for people to call PP's customer service numbers or email them directly about the censorship. They stressed that the contact had to be civil and to not escalate it to harassment. Although there were thousands of people emailing these PPs,

GOG.com's 48-hour giveaway to fight censorship



they were largely ignored. Calls to their customer service were even more effective, since they had to answer and could not just ignore their customers. There were reports of phone representatives getting angry at the calls regarding the censorship. Even asking to talk to supervisors prompted long wait times or getting disconnected from the call.

In a small act of defiance to this censorship, GOG.com gave away 12 or so of their adult-oriented games for free. Although this was available for 2 days (48 hours), GOG.com reported that thousands took up the offer.

What right do the few have to "force" onto others rules about what they can legally consume? There's always something out there that will offend someone, so why would they police the rest of the world based on their personal beliefs? Each country has their own laws on what to sell legally based on their own unique cultures. Yes, these types of materials should be regulated by them through their own local laws, that's a given. But to "forcefully" place a blanket set of moral rules onto them is beyond arrogance. So what do we do? We can continue to pressure the PPs to relinquish their stronghold. But until they do, they basically got the whole world "by the balls." ❖ Ed Gomez

TurretG

The game *TurretGirls* was released on August 25th, 2025. They've also included a Press Release and a trailer below. BUT THERE'S SOMETHING I NEED TO POINT OUT.

This game's aesthetic and chaos caught my attention before, and they had a Demo that you could play for a limited time on Steam; AND IT WAS AN UNPLAYABLE MESS. The game lagged crazily, horrible frame rate, and many others were complaining with the very same concerns. I have no idea whether-or-not these have been addressed, but I've reached out to attempt to get a pre-release copy so I can give you all a heads up about what you can expect.

With that out the way, let me put the Press Release and the Trailer, alongside my impressions.

IMPRESSIONS

The game looks absolutely insane and chaotic, with small signs of perversion here and there (the shot of her getting on her gun three times in the beginning, the main character appearing within her underwear, and the fully censored stuff at the very end). Definitely looks like something you could waste your time on, and it's not expensive at all seeing as it has a $9.99 price tag.

However, the only issue was the previous demo which was a complete and utter WRECK. Hopefully those issues have been addressed, because the game is honestly something I wouldn't mind playing.

PRESS RELEASE

Developer NANAIRO ENTERPRISE and publisher DANGEN Entertainment are excited to announce that *TurretGirls*, the explosive railgun turret defense shooter, officially launched on Steam on August 25, 2025! Aliens are pouring in from the far end of the galaxy through wormholes, rifts, and who-knows-what other space nonsense. And only one girl and her turret stand between them and total planetary annihilation.

Following the demo, the full release of *TurretGirls* brings the heat with a full roster of alien bashing content, polished chaos, more outfits and gear for "Girl," and more omurice-fueled carnage than ever before!

TurretGirls is a fast-paced, on-rails turret defense shooter where you play as a lone civil servant from the elite P.A.N.T.S.U. unit (Planetary Alien Neutralization & Tactical Strike Unit), holding the line against endless alien hordes. Strap into your upgradeable turret, build generators to charge a planet-saving superweapon, and adapt on the fly as enemies swarm from every direction. With flashy firepower, cheeky humor, and performance-based gear unlocks (including tactical uniform malfunctions!), *TurretGirls* mixes high-octane action with anime flair. ❖ Rok the Reaper

Ane no Tomodachi
by Takase, Waka

Asahi, a nerdy high school boy, is constantly at the mercy of his sister's best friend, Hi-chan (Hinako), who lives with her. She's perfectly pretty and cute, and on top of that, she's always too close to him. Asahi's emotions are constantly being disrupted by her overly aggressive and flirtatious nature. A love story about a beautiful gal with a slightly off-kilter sense of distance and a motherly boy. It seems she has feelings for him too. But neither of them knows about it, and they have a mutual unrequited love.
